

# WILL ENLARGE IRON FOUNDRY

Silver Bros. Plant to Be Moved From North Temple to Fourth West Street.

## THE FIRM IS REORGANIZED

PLAN TO MAKE THIS THE LARGEST PLANT IN THE WEST.

Radical changes are taking place in the firm of Silver Bros., the iron and brass foundry of Salt Lake City. A deal was closed yesterday by which Joseph A. Silver and his son, James W. Silver, secure for approximately \$100,000 the interests in the business held up to this time by John A. and Hyman A. Silver.

It is the announced plan of the newly organized company to remove the foundry from its present site on North Temple street to a piece of ground purchased from the firm some time ago on Fourth West street between Sixth and Seventh South streets. The new foundry and shops will be modern in all respects and equal to the best to be found in the west. It is now claimed that the Silver Bros. plant is one of the largest and best establishments of the kind in the international country. Last summer 264 men were employed at the present time 38 men are on the payroll. This number will be increased as the demand for the manufactured products of the shops increases.

Silver Bros' establishment was established by William J. Silver in 1864. Mr. Silver is still connected with the foundry in the capacity of leading draughtsman. John A. Silver, who retires from the firm, was born in Scotland near Lethbridge, Canada, where he owns 2,000 acres of land. He will engage in the grain and implement business.

Several prominent men of the city will take an interest in the new foundry to be established on Fourth West street, with the intention of making it one of the best and largest establishments of the kind in the west.

## TIME AND PLACE CHOSEN.

Woman's Auxiliary of the M. & M. Wednesday Night.

Next Wednesday evening has been definitely selected as the time and the Commercial club has been selected as the place for the organization of the woman's auxiliary of the Manufacturers & Merchants' association. Invitations were sent out to a large number of the public spirited women of the city and to the women's organizations urging them to take the work to the end that home made goods should be used in Utah to the exclusion of outside goods.

The following named individuals and firms were enrolled as members of the Manufacturers & Merchants' association yesterday: George S. Bell, R. L. Park & Co.; Callaway, Hook & Francis; Brown, Terry, Woodruff, Pluff, Rug company, and Fred Herdlicky.

Negotiations have been opened with manufacturers of hot air furnaces in the east who wish to establish a plant in the west. The advantages of Salt Lake City as a site for a plant of this kind will be fully set forth at a meeting of the board of directors of the city.

Work has already been inaugurated on a business men's tour of the state. The plan involves the chartering of a special train to carry manufacturers, merchants and capitalists over the entire state in order that they may judge of the manufacturing possibilities in Utah. It is the present intention to have this excursion

## SIN'S CONSEQUENCES

Innocent Indulgence Often Brings Trouble—F. C. Schramm Offers Means of Escape.

The consequences of violating physical law are often as unpleasant as the breaking of a moral rule. The innocent indulgence of over-eating brings consequences that amount to real suffering. Indigestion is not natural; it is not right; it should not be. F. C. Schramm offers a means of escape in Mi-o-na tablets that is simple and practical.

These simple tablets are composed of such valuable medicinal agents as bisulphate of soda, each meal with all other remedies for stomach troubles, cerium oxalate, and tonics and correctives which promote the action of the digestive organs, strengthen the whole digestive tract and make it possible to eat what you like and when you like.

If you suffer with headaches, indigestion, flatulency, heartburn, dizziness, sleeplessness, backache, or debility and weakness, begin the use of Mi-o-na at once. Just one tablet out of a 50-cent box before each meal will bring perfect health and strength.

Ask F. C. Schramm to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it cures. The risk is all his.

For sale by F. C. Schramm, cor 1st So. and Main Sts., where the cars stop.

## SALT LAKE SECURITY & TRUST CO.

IN ITS OWN BUILDING.

## M'CORNICK DEAL CLOSED.

Annex to the Bank Building for the Near Future.

The purchase of the ground adjoining the McCornick building on the north was closed on Tuesday. The parties to the deal are the Taylor-Armstrong Lumber company, the sellers, and Henry A. McCornick, the buyer. The lot has a frontage of eighteen feet on Main street and a depth of 130 feet. W. S. McCornick, recently deceased, had intended to erect a new building on the ground purchased. The new building will be but a few feet from the old building, and nothing on that side shall cut off the light and ventilation from the main bank building. It is the understanding that the new building will be erected in the coming season. Carstensen & Anson occupy the old building now on the ground.

## LOS ANGELES CAPITAL COMES.

Company Incorporates Here to Do Real Estate Business.

Articles for incorporation of the Constant-Loraine investment company of Los Angeles were filed in Salt Lake today. The company has a capital stock of \$500,000, divided into shares of \$100 each. The company is to do general real estate and investment business. R. A. Rowan is president, P. D. Rowan, secretary. They, with A. B. McKee, Freeman Ford and A. B. McCutcheon, constituting the board of directors. Frank Knox of Salt Lake is named as the company's agent for Utah.

## BREAK CLEARINGS RECORD.

Heavy Financial Transactions Shown at Opening of Year.

Bank clearings set a new pace yesterday by going to the unusual figure of \$2,367,524.65. On the corresponding day of 1905 the clearings were \$2,347,271.20. The reason assigned by the local bankers for the large clearings except that the banks of the city are clearing up their credit balances at the opening of the year. At the rate at which the clearing house is opening the new year the record at the close will make the great clearings of 1906 look insignificant. The clearings yesterday were 212 per cent greater than those of Jan. 4, 1905.

## HOME FOR A. H. CRABBE.

Buy a Fine Residence Lot on East Second South.

A. H. Crabbe, head of the clothing firm of A. H. Crabbe Co., purchased a fine lot on East Second South, and is already planning to erect a modern home on the ground. The lot is located on the north side of Second South street between Seventh and Eighth East. It has a frontage of three one-half rods and a depth of ten rods. The purchase was made from W. C. T. A. meeting. The price paid was \$4,000.

## New Ogden Grain Firm.

W. O. Kay Company of Ogden incorporated for \$50,000 in \$100 shares to do a grain business. W. O. Kay is president; W. C. Howarth, vice president; H. W. Barrett, secretary, and Cordia M. Kay, treasurer.

CHASE FOR A BURGLAR.—An alarm took the patrol and several officers to 156 South Third East last night after a burglar, supposed to be prowling in at that address. Before the officers arrived the fellow had disappeared. A messenger boy said he had seen a man running east on Second South. The fellow turned north on Fifth East and after a short time he was then lost. The boy described the man as being about six feet tall and dressed in a dark suit and white collar. A thorough search of the surrounding neighborhood proved unsuccessful.

If you wish a good dinner, go to the Manitou hotel, 6 to 7:30 p. m.

# EATON SLATED FOR PRESIDENT

High School Principal Likely to Head Utah Teachers' Association—Election Today.

## DR. HALL ON CHILD GROWTH

DISTINGUISHED EDUCATOR HAS GOOD WORD FOR SLANG.

George A. Eaton, principal of the Salt Lake High school was the man slated yesterday for the office of president of the Utah State Teachers' association for the coming year. The air was full of the political side of the gathering, and as far as could be learned there is but one person under consideration for the office up to the present time. The nomination has been tendered Mr. Eaton prior to the present year, but he has declined the office. His friends say that he will accept this year. The coming year, it is expected, will be the greatest in the history of the association, the meeting of the National Educational association in Los Angeles giving an added interest for Utah teachers. The office of secretary and treasurer, which was combined last year and made a pay office, is appointive and the nomination will lie with the executive board. The other officers are merely honorary.

The choice of a meeting place for the next year rests also with the executive committee, but a strong effort is being made to take the association to Ogden, and Ogden's strongest business organization is working for the city. All kinds of good things if Ogden is selected. Two telegrams were read by President Byron Cummings during the session, both were messages of greeting, one from the state association of California and the other from Colorado. Replies which had been sent were also read. An informal pledge was made to support California in the meeting of the N. E. A. to be held this year.

## Lecture by Dr. Hall.

"Genetic Psychology," more commonly called "child study," was the subject chosen for Dr. G. Stanley Hall's lecture last evening and the speaker handled the subject in a most interesting and scientific manner. He approached with reverence what he called the most wonderful work of God, the human being. Dr. Hall proceeded in a more specific talk with a brief summary of the studies undertaken by the student of this subject from a mere child to the adult. He discussed the growth of life and growth as discussed with great freedom. He showed how all this growth is the outcome of heredity and environment. He pointed out in each succeeding generation, the principles of heredity being the transmission of the best in the present race. There is nothing which is called material, which can be transmitted, but the effects of those material things can be. Many of the young men of the hall were looking for a stray in matters of general health, and especially in morals, because they do not understand the laws of their own nature.

The human being is born more immature than any other creature. The infant is a longer part of its life in preparation for life, but this means that the human being is more capable of being educated than any other creature. The speaker discussed how all this growth is the outcome of heredity and environment. He pointed out in each succeeding generation, the principles of heredity being the transmission of the best in the present race. There is nothing which is called material, which can be transmitted, but the effects of those material things can be. Many of the young men of the hall were looking for a stray in matters of general health, and especially in morals, because they do not understand the laws of their own nature.

## Says Good Word for Slang.

In speaking of the value of speech and the development of the child, Dr. Hall spoke with some commendation of the slang words which are so common in the language of the young. He said that slang is a means for the growing mind at least to express itself with more ease than in any other way. He urged discrimination, however. The thought of the whole was not to retard the development of the child by wise men, but to let the child grow and even his faults. In his tale of the fall of the tadpole, Dr. Hall advised that the tadpole's tail be cut off when it is in the water. It is to be absorbed to form the hind legs of the frog. So it is with many of the so-called errors of childhood. They must be cut off when they are in the water. In closing he said: "Mankind is still in the gristle, and I believe that the best things in this life have not happened yet. Man may go on and on, and the world may be a better place than it is now. The perfection which has been described as 'superman'."

## Mrs. Cooley on School and Home.

The afternoon session was devoted to a talk by Mrs. Alice W. Cooley on "Cooperation of Home and School." Mrs. Cooley's talk was filled with practical suggestions. She said in part:

Teachers are often ignorant of the home conditions which surround the child and so cannot come into close touch with him. A teacher should so study the child that he may be able to give him some, at least, of his social life. Young people have found the teacher's life so uninteresting in their social activities that they have turned to the teacher in their own hands and have run to the extreme in affairs social, indulging in the most extravagant and sometimes, when they might discard if properly guided. As soon as possible, a teacher should be able to see and realize what is being done and why. Send home some thoughts from the school room to the children. But arithmetic and grammar are studies which should not be prepared at home in the grades. Geography may be prepared at home and so may history.

Mrs. Cooley interspersed her talk with many incidents in her own experience and took occasion to speak highly of the social training school of the University, which she pronounced the best she had seen in operation.

## Meetings in Forenoon.

At the meeting of the school board session, held in the morning, Joseph Oberndorfer of the Salt Lake school board delivered an address on "Relationship of School Board to Superintendent." He argued for the entire divestment of the school board of its administrative duties and for the entire transfer of the school board to the superintendent. Mr. Oberndorfer likewise contended that the city superintendent should be given power to name principals, teachers and supervisors, subject to restrictions as to salaries and experience. Professor Byron Cummings made a short talk on the duties of trustees in regard to the establishment of high schools in various counties.

The superintendents' section met in the office of State Superintendent A. C. Nelson, and after a paper on the subject had been read by Superintendent W. B. Peterson of Weber county, a committee of five was appointed to review the course of study. All superintendents may make suggestions to this committee up to April 1. A committee was also appointed to
